

COMMUNITY RELATIONS GOALS

The Board of Education strives to conduct district affairs by way of a continuing, open dialogue between the community and the schools. Given district residents' high level of interest in the education of children, the Board wishes to maintain its high level of sensitivity to the needs and desires of the community and to act expeditiously to meet changing needs and conditions.

To this end, the Board establishes the following goals for community involvement:

1. to provide a variety of means whereby residents of the school district may have the opportunity to contribute their best thinking to the orderly planning of education for children in the district;
2. to keep the community accurately informed about its schools;
3. to expand the public understanding of every aspect of the school system, and stimulate public interest in the school;
4. to ascertain the community's opinions and desires with respect to the operations of the school system, and to incorporate that knowledge into its actions; and
5. to develop arrangements among civic and community organizations for sharing of resources, especially in the creation of programs designed to benefit students.

Notwithstanding the above, the final decisions in these areas will rest with the Board.
