Good evening parents,

You've likely heard that one of our neighboring districts is reported to have a confirmed student case of the COVID-19 virus, as well as one suspected staff case. The Clinton County Public Health Department has indicated that all known contacts of these individuals have been traced and informed. Until advised to do otherwise, our schools will continue to operate in the hybrid mode of instructional delivery.

This situation represents a useful and important reminder about the need to stay vigilant with regards to mask wearing, distancing, and general hygiene. Our reopening protocols have proven successful thus far, and strict adherence to these will best ensure that our schools stay open and that we will be able to continue to provide some level of in-person instruction.

As always, if your children display any COVID symptoms, they should not attend in-person school, and you should contact (or expect outreach from) the School Nurse.

The resumption of in-person instruction through our hybrid system of delivery has been an incredible collective accomplishment, and we should all be proud that we've begun to recapture the education and student support which was so impeded during the Springtime closure. With continued commitment to hygiene best-practices, we'll sustain this for as long as possible.

Please don't hesitate to contact your child(ren)'s building Principal if you have any questions.

Best,

Jay Lebrun
Superintendent of Schools

MISSION

Our mission is to educate each student of the Plattsburgh City School District by creating challenging, supportive, and interactive learning that advances intellectual, physical, social, and cultural development.
